

RFK DAY

Rose F. Kennedy Center Day
Friday, April 21, 2023

Dedicated to improving the lives of individuals with autism and intellectual and developmental disabilities

On May 1, 1966, Rose Kennedy and her son Robert broke ground for Einstein's Rose F. Kennedy Center. It opened its doors in 1970, making it one of the oldest centers on the Einstein campus. Today, we are one of the few academic medical centers in the nation that hosts all three of the major intellectual and developmental disabilities research, education/advocacy, and training programs supported by the federal government. These programs, combined with our extensive clinical services, support our dynamic and multifaceted dedication to the RFK Center mission.

With welcoming addresses by **Dr. Gordon Tomaselli**, The Marilyn and Stanley M. Katz Dean at Einstein, and **Dr. Philip Ozuah**, President and CEO of Montefiore Medicine, this session will include talks about the history of the Rose F. Kennedy Center (Dr. Steven Walkley) and a brief overview of the IDDRRC (Dr. Sophie Molholm), CERC, UCEDD and LEND (Dr. Lisa Shulman).

ROBBINS AUDITORIUM | HYBRID
9:00 AM - 2:30 PM | ALL ARE WELCOME!

These will be followed by the following talks:

"From Research Bench to Clinic: The Einstein Story of KDM5C"
