

Membership in the Dean's Society is granted to individuals who support the medical school through leadership annual fund support each year. This distinctive society celebrates the annual leadership giving of alumni, parents, and friends to Albert Einstein College of Medicine. Generosity from this community of benefactors enables us to meet pressing needs in our classrooms, laboratories, and across campus so that we can invest in scholarship, innovation, research, and the academic and practical opportunities that benefit our students' and scientists' growth at Einstein.

The following list includes members who joined on or before 12/31/2022:
