## INTRODUCTION

The Bronx Directory of Health Services was created in an attempt to compile a centralized resource of regional health care services for persons with developmental disabilities. The original 1996 version of this directory has been expanded to include 66 entries. It is hoped that parents, consumers and professionals will be able to secure information that will help individuals locate and obtain health services for persons with special needs such as intellectual disabilities and other developmental disabilities. All of the entries in this directory were included in response to a mailed questionnaire and telephone survey. Programs and services that did not wish to be listed or those that did not respond to our inquiries are not included in the directory. Inclusion in the directory does not constitute an endorsement by any of the organizations assisting in the development of this directory; therefore, consumers, parents and professionals should select programs carefully before enrolling or utilizing any services. Also, consumers should inquire as to specific eligibility criteria for access to health services listed within this directory.

Since the listings in this guide are not inclusive of all services, families and professionals should feel free to call the Consumer, Parent, Professional Partnership project to help you locate additional services or to answer any questions you might have. Our telephone number is (718) 430-8518.

Much thought has been given to making the information in this directory easy to use. We are grateful to all those individuals who took the time to make suggestions in formatting this directory. A very special thank you to **Phyllis Angelico** and **Jeannie Ramos** who helped with data collection, entry, editing and compilation of material used in the production of this 2014 guide. We also would like to thank the members of the **Health Services Committee of the Bronx Developmental Disabilities Council**, especially **Dorothy Stone** for updated entries, the **New York City Department of Health and Mental Hygiene** and **Metro Developmental Disabilities Services Organization of the**

**New York State Office for People with Developmental Disabilities** for their suggestions in the development of the health services directory.

Arnold Birenbaum Ph.D.

Director, Consumer, Parent and Professional Partnership Project  
Associate Director, Rose F. Kennedy UCEDD,  
Albert Einstein College of Medicine of Yeshiva University

Joanne F. Siegel, L.C.S.W.

Co-Chairperson, Bronx DD Council Health Services Committee  
Director of Community, Legislative and Advocacy Services  
Rose F. Kennedy UCEDD,  
Albert Einstein College of Medicine of Yeshiva University

## **How to Use This Directory**

This directory is indexed in two different ways.

- (1) An alphabetical index by name of service agency, clinic or individual practitioner.
- (2) Alphabetical index of service categories; for example, neurological, ophthalmology.

Each alphabetical entry will indicate the page number where such a service can be located
