Postdocs **SCORE!**

Scientific Career Opportunities for Research at Einstein

- A vibrant and diverse postdoctoral community drawn from the world's top graduate programs
- Close interactions with the administration
- Established Career and Professional Development program led by a professional career expert
- Annual Awards for Outstanding Postdoctoral Research
- Leadership opportunities via the Einstein Postdoctoral Association

<http://www.einsteinmed.edu/research/belfer-institute/einstein-postdoctoral-association/>

Research

- Clinical and basic science research opportunities
- 9 Centers of Excellence
- 7 NIH Designated Centers
- State-of-the-art shared scientific facilities

Career & Professional Development

- One-on-one career coaching
- Workshops (e.g., job skills, networking, build your cv/resume)
- Professional/educational clubs

Social Events

- Postdoctoral networking events and barbecues
- Winter social
- International Coffee Hour
- Postdoc appreciation week

EINSTEIN QUICK FACTS

Founded: 1957

Enrollment: About 250 postdoctoral fellows from 45 countries

Competitive Salaries and Benefits

Housing: University housing within walking distance of the College

Laboratories for Postdoctoral Research: >200

Location: Bronx, NY

Albert Einstein College of Medicine

Montefiore

The Belfer Institute for Advanced Biomedical Studies

- The highest level of scientific achievement
- An institution that is among the top in the nation for research funding from the National Institutes of Health (NIH)
- Ranked by Forbes as one of the country's best midsize employers in 2021
