Seeking Novel Drugs to Treat Autoimmune Diseases

Company: Asahi Kasei Pharma

Asahi Kasei, a global pharmaceutical company, is seeking promising novel drugs for the treatment of a wide range of autoimmune diseases.

Submission deadline: 26th February 2024

→ [Download PDF](#)

Innovative Approaches for the Treatment of Nucleotide Repeat Expansion Disorders

Company: AstraZeneca

AstraZeneca is looking to collaboratively uncover and advance groundbreaking approaches for mitigating nucleotide repeat expansion toxicity.

Submission deadline: 6th March 2024

→ [Download PDF](#)

Enhancing Targeted Drug Delivery for Diseases Affecting the CNS, Muscle, Heart, and Kidney

Company: AstraZeneca

AstraZeneca is looking to uncover innovative methods for tissue-specific delivery as well as selective tissue-specific expression or regulation that can substantially enhance the therapeutic efficacy and safety profile of their novel molecules.

Submission deadline: 6th March 2024

→ [Download PDF](#)

Computational Model to Guide Molecular Glue Drug Discovery

Company: AstraZeneca

AstraZeneca is looking to develop a computational model based on molecular glue ternary binding and kinetics, to guide decision making on project initiation, and key optimization strategies.

Submission deadline: 6th March 2024

→ [Download PDF](#)
