

Albert Einstein College of Medicine

**Post-Doctoral Fellowship  
CANCER EPIDEMIOLOGY**

Department of Epidemiology and Population Health  
*Albert Einstein College of Medicine*

Applications are sought from individuals with a strong interest in molecular and nutritional epidemiology for a Post-Doctoral Fellowship in Cancer Epidemiology in the Department of Epidemiology and Population Health at the Albert Einstein College of Medicine in New York. The position, which will be tailored to the interests of the successful candidate, will offer abundant opportunities to analyze data and publish from ongoing epidemiologic studies, to contribute to the development of new studies, and to present research findings at conferences. The position comes with a competitive salary and attractive benefits.

The Albert Einstein College of Medicine is a leading research institution with a strong commitment to excellence in research. It has a number of NIH-funded centers, including one in cancer. The Department of Epidemiology and Population Health is well recognized for its multi-disciplinary programs in epidemiologic and prevention research, and has a strong cadre of cancer epidemiologists.

Applicants should have a strong interest in cancer etiology in general, and they should have strong data analysis and writing skills. Qualified candidates include doctoral graduates (Ph.D., Dr. P.H., or equivalent).

Send/e-mail letter of interest, CV, and names and contact details of three references to:
