UPCOMING EVENTS

The CPD continues to develop original programming. Check out upcoming events for January & February.

JOB SEARCH STRATEGIES (for jobs not in academia)

January 22 | Price Center Room 251 | 4-5:30pm | [RSVP HERE](#)

- Learn the Who, What, When, Where, Why, and How of the job search
- Get 15 top strategies and tips about making your job search truly proactive
- Find out what you need to start doing now

SUCCEEDING AS AN INTERNATIONAL PROFESSIONAL IN AMERICA: WHAT I WISH I HAD KNOWN WHEN I STARTED OUT

January 30 | Price Center Room 251 | 4-5:30pm | [RSVP HERE](#)

- Helpful tips & recommendations from panelists who will share what they wish they had known when they first came to the U.S.
- Ask your own questions and enjoy a traditional American snack: Apple Pie!

CAREER OPPORTUNITIES IN CORE FACILITIES - THE GOOD, THE BAD, AND THE UNIQUE

February 13 | Price Center Room 251 | 12:00-1:00pm | [RSVP HERE](#)

- Is this viable and rewarding career path in science on your radar?
- Learn more about these centralized research resources and what services they provide beyond shared access to instruments and technologies
- Understand the skills, experiences, and interests needed to succeed in this area

WHY I LOVE MY JOB: TENURE TRACK AT A TEACHING INSTITUTION (Brown Bag Series)

February 21 | Board of Overseers | 12:00-1:00pm | [RSVP HERE](#)

- Have you considered staying in academia but working in a teaching institution?
- Tejas Bouklas, Einstein PhD program alumna and now Assistant Professor in the Department of Biomedical Sciences at LIU, will provide eye-opening, insider information about the job she loves and how she took advantage of (or created) opportunities to get it

CAREER CORNER

In November, the CPD and the Office of Faculty Development (OFD), collaborated to launch *Driving Your Career*, a professional development series designed to provide graduate students and postdocs with real-world skills, practical resources and well-rounded knowledge beyond the technical focus of research to help trainees successfully transition to satisfying careers.

The inaugural event was Effective Communications, a workshop intended to improve the quality of relationships by making graduate students and postdocs aware of how to communicate with better understanding. Dr. Diane Safer, director of the CPD, and Dr. Christina Coyle, director of OFD, led the event.

In this highly interactive workshop, the leaders administered an assessment tool to graduate students and postdocs to determine which of 4 communication styles and temperaments (represented by 4 colors) characterized them most. Everyone is a combination of all 4 styles but has a primary style that relates to their motivators and their stressors. The activity provided a non-judgmental way to aid participants' understanding and awareness of these differences. It was a fun and social evening with wine, snacks, and learning.

CPD RESOURCES

The Career Hub for Postgraduate Life Scientists

Did you know that as an Einstein graduate student or postdoc you have free access to BioCareers®?

BioCareers, an online career resources and job postings website, is dedicated to expanding professional options for life science PhDs. Its site provides access to research, search and apply for more than 1500 jobs in academia, industry, consulting, and government.

BioCareers also provides career development resources. From career blogs to Career Paths Pages introducing career options to monthly webinars that provide information about improving your skill set, BioCareers offers so much from which to choose. You can even ask your own career questions and read other scientists' job search stories.

Whether you want to explore a new career path or want to develop professional skills, visit Einstein's BioCareers.
