Every student in the Einstein Graduate Programs in the Biomedical Sciences must register online using [Banner Web](#) during the assigned registration period (check the [Academic Calendar](#) for registration dates each semester). This includes all PhD and MD/Ph.D. students except MD/Ph.D. students entering the second year of Medical School and MD/Ph.D. who have returned to the Wards.

HOW TO REGISTER

To register online, you will need your User ID number and Personal Identification Number (PIN) of your choice.

PhD Graduate Course Requirements

Graduate course-credit requirement: 21.0 course credits minimum

First-year required graduate courses (does not count towards the credit requirement):

- *Learning to be a Scientist, Scholar and Colleague* (Fall; pre-registered)
- *Responsible Conduct of Research* (Block II)
- *Quantitative Skills for the Biomedical Researcher I* (Block III)

Department-specific course requirements and recommendations

Albert Einstein College of Medicine
OF YESHIVA UNIVERSITY

PhD Graduate Course Requirements

- * **Transfer of credit** for a graduate course taken at a prior institution, may be granted if that course is deemed equivalent to a current Einstein graduate course as recommended by the current graduate course leader. No more than two prior graduate courses can be approved for “transfer credit” and no additional credit will be applied if student is afforded the “Master’s credit.” (In this case, only exemptions apply.)
- * A **course exemption** may be granted if a similar graduate course has been taken at a prior attended institution. An exempted course is not counted towards the minimum required course credit of 21, and therefore, another course must be taken in its place.
- * If a student enters the PhD program with a Master of Science or Master of Arts from a relevant discipline, or a Doctor of Medicine degree, he/she may apply for “**Master’s credit.**” Appropriate documentation of conferral of the Master’s or MD degree is required. If the request is approved, the student is granted three (3) credits towards the program course credit requirement. The student then has to take 18 course credits in order to satisfy the program course requirements.

Note: A student who has received Master’s credit cannot receive additional transfer credits for graduate courses taken elsewhere.
