

Did You Hear about ScreenPlus?

ScreenPlus Research Team:

Jack D. Weiler Hospital
1825 Eastchester Rd, Bronx, 10461 
718.741.2496 
screenplus@montefiore.org 

Dear Parent(s),

Congratulations on your new family member! You recently gave birth at **Jack D. Weiler Hospital**, so your baby is eligible to participate in **ScreenPlus**. ScreenPlus is a research study that offers parents the option of having their babies screened for 14 additional disorders on top of the routine screening performed by New York State. In the rare case that your baby has one of the disorders on the ScreenPlus panel, it is helpful to know as early as possible.

A study member may have visited you to invite you to participate in the study. However, if we missed you during your stay, **we will call you within the next week** to see if you are interested in joining!

If you have any questions, comments, or do not wish to be contacted, you can reach us by email at screenplus@montefiore.org. For more information, you can also check out our study brochure included in this packet or visit our website at www.ScreenPlusNY.org.

Sincerely,

ScreenPlus
